# Acceptify

- <https://acceptify.at/en/start>
- Wybór decyzji z najmniejszym oporem i największą akceptacją

The screenshot displays the Acceptify website interface. At the top, there is a navigation bar with the logo and links for 'WHY ACCEPTIFY?', 'PRICING', 'ABOUT US', 'SIGN UP', and 'LOG IN'. The main content area features a central process flow diagram with four stages: 1. 'PROBLEM/TASK' (A group has one common problem / one common task), 2. 'SOLUTIONS' (The group generates as many suggestions as possible), 3. 'SINGLE REVIEW (according to resistance)' (The proposals are evaluated individually by all participants), and 4. 'RANKING according to TOTAL RESISTANCE' (The group resistance is calculated). A callout box highlights: 'The Proposal with the least Group resistance is closest to the Consensus.' Below this, three key features are listed: 'CONTRIBUTE ANYTIME. ANYWHERE' (Participate in solution finding processes, regardless of location or time), 'A PARTICIPATIVE CREATION OF VALUE' (Have all participants develop, screen and rate new ideas), and 'MAKE DECISIONS MEASURABLE' (Let people rate the current situation and see how much better the new solution is). A footer note states: 'This site uses cookies to provide you with the best possible experience. If you continue to browse our site, you consent to our use of cookies and to our privacy and personal responsibility policy.'
